Speakers:

Aleksandra Jovic

Aleksandra Jovic is a medical doctor with more than 17 years of experience in social development. She is currently working as Early Childhood Development Specialist in the UNICEF Regional Office for Europe and Central Asia Regional, supporting the work of 21 countries to mainstream early childhood development principles in health, nutrition, education, child protection, and emergency planning and response.

As a national of Serbia, through the past ten years she worked on development and implementation of UNICEF programs in Serbia, working with governmental and non-governmental partners to strengthen health programs, including home visiting, education and social protection programs as well as local level delivery of coordinated social services.

As an employee of the Government of Serbia (2004-2008), Aleksandra managed the overall implementation of the Poverty Reduction Strategy for Serbia, and was directly involved in development of coordination, oversight and implementation modalities of multi-sectoral policies and initiatives at the national level.

During her engagement with Oxfam GB (2000-2004) she developed and managed the first model of Roma health mediators' program in Serbia, as **well**

as one of the first outreach health programs which brought health professionals closer to vulnerable families and children in Serbia.

Ilaria Favero

Ilaria Favero has sixteen years of professional experience in programme management, provision of technical support and partnership building on child and adolescent rights in Angola, Somalia, Brazil, Albania and Romania. She is currently Adolescent Development Specialist in the UNICEF Regional Office for Europe and Central Asia, providing strategic advice, oversight and technical assistance to 21 Country Offices the Region with regard to the development, implementation, monitoring and evaluation of adolescent programmes, particularly in the area of skills, adolescent participation and parenting of adolescents. As the Coordinator of UNICEF's Sport for Development (S4D) Programme for UNICEF Brazil until 2013, Ilaria managed key programmatic partnerships with the world of sport. Specifically, she provided policy and technical support to the Brazilian government on the elaboration of child protection plans in the 12 World Cup host cities and programmes for the inclusion of children with disabilities through sport. She also coordinated the elaboration of UNICEF Brazil's guidelines on sport for development for more than 1000 municipalities in the country. Over the last fifteen years, she supported the creation of adolescent networks in different countries and coordinated several consultations with adolescents on different issues affecting their lives, including sport, child protection and HIV.

Priv.Doiz.Mag.Dr. Maria Paulke-Korinek, PhD

works at the Austrian Ministry for Labor, Social Affairs, Health and Consumer Protection. She is a specialist in the field of immunization and disease prevention programs and also a lecturer at the Medical University Vienna.

Dr.Manuel Schätzer

Born in Innsbruck/Tirol in 1977 Manuel Schätzer holds a PhD in nutritional science from Vienna University with his thesis focusing on public health nutrition. Since 2007 he has been working for the Institute of Medical Prevention "SIPCAN – initiative for a healthy life" managing projects in more than 70 schools: "Eating healthy in Viennese schools", "Smart drinking", "Priority to healthy snacks" to name but a few. In 2011 he became the project leader at the Austrian Agency for Health and Security in Nutrition for the project "Our school buffet". Dr. Schätzer is the author of various publications on healthy nutrition and co-

author of the National Nutrition Report 2008. He teaches at Vienna University and at UMIT private university for health and life sciences in Hall in the western part of Austria.

Mag. Nadja Springer

A clinical and health psychologist by training she works as a psychotherapist and university lecturer. She is responsible for the program “The little lighthouse” ([der kleine Leuchtturm](#)) and is especially interested in supporting families with challenges in the field of addiction as well as in research and science based evidence.

Dir.HR Mag.Dr.Werner Schwarz studied mathematics and sports (physical exercise) at the Vienna University and became a teacher of these subjects in 1978. He continued his studies of sport science and obtained a PhD in 2001. Furthermore he was national champion in cross-country skiing, a trainer for cross-country skiing, mountain-biking and badminton before becoming the principal of the Bundesgymnasium Zehnergasse 15 in Wiener Neustadt. Dir. Schwarz also serves as a member of the Scientific Advisory Council for High-Performance Sport since 2000.

Optional program:

Sunday, November 10th: morning: Optional cultural program: either guided tour of town or guided visit of the Caravaggio – Bernini exhibition at the Kunsthistorisches Museum.

Sunday, November 10th: afternoon: Dancing class (first steps training session) at a renown Austrian dancing school

Monday, November 11th at 11:11 begin of the Ball and Carnival Season celebrated on the Graben in the City Centre (close to St. Stephan’s cathedral) by the pupils of all Viennese dancing schools with a great quadrille dance performance which is part of all Viennese balls at midnight.
